

## Research titles formerly appearing on Nuclearcrimes.org (content no longer accessible):

### Analyses (now offline):

**Trinity in New Mexico to Atomic Attack in Japan** [The Trinity atomic test; Where did the fallout from Trinity and Fat Man go?; 'Atomic' censorship and control during the U.S. Occupation of Japan; Footnotes]

**Global Fallout From Nuclear Testing** [The bomb testing; Strontium-90's rain-food-bone-disease chain; Strontium-90 threat to human health not gone; Footnotes; Advanced topics: total nuclear testing yields, U.S. radiation hotspots]

**U.S. Nuclear Weapons Complex** [Los Alamos National Laboratory; Idaho National Laboratory; Hanford Nuclear Reservation; Nevada National Security Site; Final note]

**Rongelapese** [The 1954 Bravo detonation and the Rongelapese; U.S.'s human guinea pig experiment, Project 4.1; Evacuation from Rongelap; Questions about guinea pigs; Appendix: Review of soil (radiological) measurements on Rongelap since 1954]

**The History and Future of Nuclear-Powered Spacecraft** [Nuclear space missions: United States; Nuclear space missions: the Soviets; Nuclear debris from satellite atmospheric re-entries; Footnotes/table of nuclear-powered spacecraft launched by the USSR; Development of nuclear rockets for space; Ban Nuclear Power Beyond Earth Act; NASA's Curiosity launch (2011)]

**Mighty Oak** [The Mighty Oak nuclear test; The Mighty Oak-Chernobyl coverup; Footnotes]

**Subcritical Tests and What Really Is A 'Nuclear Explosion?' & Radioactive Gases from Underground Nuclear Tests**

**The 'Bad Science' Behind Nuclear Reactor Operations** [Nuclear power creates nuclear fallout; Distorting emissions in nuclear power operations; Something's in the pool! - spent fuel rod dangers; Gaseous radioactive waste types - References; Case Studies: Vermont Yankee, Three Mile Island]

**Rulison** [The detonation; Raiding the radioactive tomb; DOE's 'Plan Forward'; Rio Blanco in their sights; Footnotes/other Plowshares; Reclaiming your voice under NEPA]

**Fukushima** [Health impacts: Infant mortality in Japan; Funny strontium business; Funny plutonium business; U.S. and Iodine-131; U.S. dose response formulas are wrong; Volatilization]
